

BLUE CHIP PROJECTS & FACILITIES

Blue Chip's world-class ambulatory surgery centers are designed for:

- Patient comfort and convenience
- Fast, efficient OR turnover
between procedures – 10 minutes or less
- Surgeon and staff productivity.

Our projects include de novo development of spine and multi-specialty surgery centers, "turnarounds" of underutilized centers, and joint ventures with hospitals and health systems.

Mayfield Clinic Spine Surgery Center

www.mayfieldclinic.com/ssc

- Cincinnati, Ohio
- Opened 2005
- Three operating rooms, one procedure room and 11 pre- and post-op patient rooms
- Developed by the Mayfield Clinic, the Center features an advanced, yet comfortable, patient-focused environment.
- Focused on spine treatments and pain management
